

VOFX SERIES

INTERCHANGE > Similar Couplings (Oil & Gas)

Stucchi®

BOP

TECHNICAL FEATURES AND OPTIONS

	Interchange Similar Couplings (Oil & Gas)		Sealing description Nitrile NBR		Connection system Screw
	Available sizes From 3/4" to 2"		Material Stainless steel (AISI 316L)		Available threads NPT - BSP
	Operating pressure Up to 207 bar		Locking mechanism Screw to connect		Flow rate Up to 1100 l/min
	Temperature (°C) -20° / +100°		Valving style Poppet		Connection under pressure Connection: one side Disconnection: not allowed

BENEFITS

- Connection under residual pressure is allowed in one side.
- Inspection hole to control if the coupling is completely connected.
- All dimensions of Stucchi VOFX series are certified with Lloyd Type Approval in accordance with API 16D at specific rating pressure of 207 bar/3000 PSI.
- New treatment on the threads to avoid premature wearing.
- Wrench flat on the bodies to facilitate the fitting assembly.
- The poppet valve with elastomer seal provides maximum sealing of the couplings when disconnected.
- Retainer in stainless steel material.
- Shape of internal parts is designed to reduce turbulence and pressure drop.
- High resistance to pressure impulses (500.000 connected).
- Compact design.
- Simple to use.

HOW TO USE

- Before to connect, clean the mating surface of the couplings and spread anti galling paste on the thread.
- To connect insert the nipple in the coupler, screw the sleeve until positive stop (surface contact of two moving parts), do not push together the couplings, screw only.
- The use of tools for the second part of the connection can be necessary if there is high residual pressure in the circuit.
- Check inspection holes to ensure that the coupling is fully connected (no free space allowed).
- To disconnect unscrew totally the sleeve from the nipple.

MAIN APPLICATIONS

POPPET SCREW

PERFORMANCES

* Connect torque and disconnect torque without residual pressure. The torque to connect increase with increasing of internal residual pressure.

** Spillage is an indicative value of the fluid loss per couple-uncouple cycle without residual pressure.

All dimensions of Stucchi VOFX series are certified with Lloyd Type. Approval in accordance with API 16D at specific rating pressure of 207 bar/3000 PSI. For complete technical information please contact Stucchi Technical Support.

Different possible configurations:

SAE thread available upon request.

Material:

- Construction: Stainless steel AISI 316L
- Springs and elastic rings: AISI 302

Temperature range:

Standard seals NBR from -20 °C to +100 °C (from -4 °F to +212 °F). Please read carefully Instructions and warnings for proper selection of the products.

Tests performed:

The couplings coupled have been tested at max. operating pressure for 500.000 impulses in accordance with ISO norm. The couplings uncoupled have been tested for 100.000 impulses.

WARNING

A defect, a wrong choice or an improper use of products, can cause injury to persons, animals and objects.

Never connect or disconnect with dynamic pressure (e.g. pump on).

Do not couple-uncouple with flow in the circuit.

Do not couple-uncouple when the temperature inside of the circuit is higher than 80 °C (176 °F).

Do not use the coupling disconnected with high impulse pressure.

Connect under pressure products are suitable to be connected under residual (static) pressure.

Connection with residual pressure (pressure trapped in the circuit) allowed with other side coupling to drain.

Check the maximum allowable working pressure of the port in use.

Make sure that the medium used is compatible with seal and material as indicated for each series.

In case of doubt please contact Stucchi Technical Support.

The interchangeability is mentioned under the assumption that the manufacturer of the considered products has not changed any dimension.

It is mandatory to carefully read and closely follow the instructions before selecting or using any Stucchi products.

Always refer to the version uploaded in the Instructions and warning section of stucchigroup.com website for the latest release.

For specific, product-related, instructions, please contact Stucchi technical service.

PROTECTIVE CAPS FOR VOFX SERIES

Protective caps are always recommended to protect the couplings from damage, dirt inclusion, and will increase the product life. This is particularly important in Oil&Gas and mobile applications where exposure to weather and aggregate materials are common. The protective caps for VOFX couplings are manufactured in aluminum (natural color). Upon request also caps manufactured in stainless steel version.

Protective Cap
